APRIL 2005

www.rsocbristol.co.uk

Welcome to the April Meeting

This Evening

In tonight's meeting it is the return of the ever popular Bring 'N' Buy evening . and we will also hope run a small raffle as well with all the usual stuff for the car .

Last Month Meeting

Last months meeting we held our very popular Bingo session , which proved be a good laugh for all , well done to Simon Drake for running the session , he loves it really !! and we also ran a small raffle .

Next Months Meeting

The May meeting we hope to bring you the first of this years outdoor activities as the weather in the evenings should be warmer and lighter and with that we will try to bring you the usual raffle, as well .

Events and Shows

The 2005 show season has just started and as the weather becomes that bit warmer we will all be out side polishing and cleaning ready for the many shows to start and with that

the 2005 calendar is on the next page , act now if you wish to attend any of the shows as in the 1st instant you need to speak to Chris Richards .

Castle Combe 2005 ... Application forms are now available , please ask for your copy

which is exclusive to the Bristol & Swindon local groups , the web

site has become active again with ALL the details you may wish to know , the computerised answering system has now also gone live ready to take the calls , to date the track is now over 25% full , so do not leave

it to long if you wish to take part in the non-stop track action at

CC2005 ,also now is the time to apply for club displays etc again only available by appli-

MAY MEETING

Thurs 19th March

Outdoor Games

cation , do it now before it all fills up .

RSOC National Day ... To celebrate the 25 years of the RSOC each local group is now allowed to have **25 RS** cars on each local group stand , and the entry price is then slashed to just £5.50 (a fantastic saving) however we need to act very quickly , so if you would like to be part of this years anniversary event please speak to Ian , **NOW** .

Ford News

The all new Ford Focus features a distinctive silhouette and sleek, contemporary looks

with a fast, sporty rear design that really makes it stand out. Its lower stance adds to its sporting poise and dy-

amic attitude, with a stiffer chassis, wider track and a longer wheelbase for great

cornering grip and predictable, rewarding handling.

The all new Ford Focus introduces a host of new technologies developed with an emphasis on relevance and affordability for customers.

- KeyFree System – interacting directly with the car to unlock it without the need to remove keys from your pocket or handbag.
- Solar Reflect Windshield – reduces energy being transmitted into the car by up to 21%. This makes the car cooler, increases fuel economy and improves occupant comfort levels.

- Adaptive Front Lighting System – technology that guides headlight beams in line with the front wheels which enhances illumination on the road, especially when cornering at night.
- Bluetooth® Hands Free Phones – wireless technology, allowing the connection of mobile telephones, personal digital assistants and laptops.
- Voice Control Systems – hands-free command of audio, telephone, climate control and navigation systems.
- Rear Seat Entertainment – MP3-enabled independent audio system available, with high-mounted screen for DVD or games consoles provided in the wagon.

possible? Simple, by listening to our customers we've been able to develop innovations in vehicle design, technology,

safety and security that confirm Transit's reputation

as a true great Briton. As a result, each Transit or Transit Connect that rolls off the production line is ready and willing to get the job done in any one of thousands of British businesses across Britain. © Ford Motor Company 1998-2005.
